

Coordinated Doctor of Medicine / Master of Public Health Program

This coordinated degree program is offered through the [UAB School of Medicine](#) and the [UAB School of Public Health](#). MPH focus courses may be customized to the experience and needs of the student.

Students may choose between two program formats: a four-year program or a five-year program.

- The four-year program requires students to complete MPH coursework while also completing medical school coursework. Additionally, students in the four-year program may begin taking courses the summer before they begin medical school.
- The five-year program requires students to take a one-year leave of absence from medical school to concentrate on MPH coursework.

Students may complete the MPH degree program totally online, in class, or through a mix of online and in class experiences.

Below are the courses required for the MPH degree, for information about the MD curriculum please [click here](#).
